

Written On My Soul

Beckon Q

Come a little closer now to here
You know I'm not a fan of distance oh love
Take a seat come and rest beside me
You know I'm not a fan of distance my love

And never in a moment ever go
When your name is written on my soul

Tell the joke only you and I know
You know you are the only one who makes me laugh like that
Say you'll not say goodbye to the sweet lights
Just tell me, take a trip, I love this busy life

And never in a moment ever go
When your name is written on my soul

I never seem to find the words, ambition, dreams
to say to you, how much I I I
Never seem to find a solid place
to read between the lines
of what I can and cannot to show you,
I need you alone

Imma put my arms around you and not let go
Oh and if this space between us
is what and I can reach you,
I will sing, I will sing, I will sing out, sing it

Never in a moment ever go
When your name is written on my soul
Never in a moment ever go
When your name is written on my soul
