

# Lookin Back (feat. Wiz Khalifa)

[Chevy Woods](#)

Me and them niggas, you could hustle but the game different  
He was in the same kitchen, cook cocaine different  
Never once did I showed him who do lame business  
Or riding me it don't belong up in the same sentence  
If you go broke, you get it back and don't go broke again  
You acting funny, swear to god that I'ma know to swing  
My cousin said he off to robbing now he smoke again  
He think its funny man like life is just a joke to him  
Man I done had my shit lets go get it hopeless friend  
Can't nobody tell you how we feel when this thing end  
I serve my cousin man I guess I met him to the cycle  
Gotta keep this money right here and the bible All I know is how is I gotta go  
Straight to the money baby is all I know  
All I know is how is I gotta go  
Straight to the money baby is all I know My cousin show me how to cook it, I ain't have a problem  
I got this .40 on me, shout out to the robbers  
We on the top right now, we started from the bottom  
Rest in peace to Ike, I'm playing Nostradamus  
You niggas ain't no bosses man y'all  
You acting like you balling, I just  
I gotta get this money, what you thought I wasn't  
I put that on my cousin Just made a play but Ricky be my dog for life  
Ask Taylor Gang, I do this shit like every night All I know is how It gotta go Straight to the money baby is all I  
know  
All I know is how It gotta go  
Straight to the money baby is all I know  
Uh, 4 in the morning, shorty laughin'  
She working for persons to put the guess in, you throw them 1's  
She talk dirty before she cash in, soon as she done  
Counting that money up on the mattress, figured you won  
She only fucking you cause your status  
Running back to me braggin'  
Actin' like she tired from the nights action  
Just the thought that you might smash it  
Got you strugglin' with your life, paying bills, buying shoes, looking for flights  
You got everything, and work for everything Ain't nobody came around and gave you anything  
Major cake what you used to makin'  
Them niggas fake send them on their way  
Then in the morning say

All I know is how It gotta go  
Straight to the money baby is all I know  
All I know is how It gotta go  
Straight to the money baby is all I know
