If Only

Triumph

If only I could change the world
With just a simple song
If only I could keep my words
From coming out all wrongIf only I could make you see
Another point of view
If only wishes would come trueIf only once upon a time
Could be the here and now
If only make believe could make
Believers of us allIf only I could touch the dream
So deep inside of you
If only wishes would come trueIf only, if only wishes would come true
If only, if only I could get to you
Maybe we could make a wish come trueIf only I could change your heart
With just a simple song
If only I could stop the world
From turning out allIf only everybody wished
The same things that I do
There would be hope for me and youIf only wishes would come true
If only wishes would come true
If only wishes would come trueIf only words would make you mine
Why dont I see its so hard to find
I gotta try to make it right
