

We Will Fucking Kill You

Anaal Nathrakh

[Chorus]

We will fucking kill you

Shall be the whole of the law

We will say we love you

As we scythe you down like grass

See how we will save you, how we'll give you what we have

Diseased spiritual oblivion in an amoral morass[Pre-Chorus]

I cannot contribute anything to this world because I only have one method - agony[Chorus]

We will fucking kill you

Shall be the whole of the law

We will say we love you

As we scythe you down like grass

See how we will save you, how we'll give you what we have

Diseased spiritual oblivion in an amoral morass[Bridge]

In such moments you will be severed from life, from love, smiles, friends and even from death
