Last Day

Silver Sun

This is the last day of your life
Not in 3D
Instead in 2D, flat, don't pull me out
I like the snow and better still
I like it when you're not around
Give me my loan back
All of my ex-girlfriends they were shit
(chorus)
This is the last day of your life
And where are you going to go now?
This is the last day of your life
This is a still like pipe smoking momma
And she's mad
Words were meant to be lies
Didn't score no tries
Out of your mouth the golden palace
The teeth of a million days
All of these notes and music, hey hey hey
Won't you listen to what she says?
And on a toilet dad walks in
As she tries to do her thing
And everybody's gone surfing again
(repeat chorus two times)
