

# Witness

## Sarah McLachlan

Make me a witness, take me out  
Out of darkness, out of doubt I won't weigh you down with good intention  
Won't make fire out of clay or other inventions Will we burn in heaven, like we do down here?  
Will the change come while we're waiting?  
Everyone is waiting And when we're done soul searching  
As we carried the weight and died for a cause Is misery made beautiful right before our eyes  
Will mercy be revealed or blind us where we stand? Will we burn in heaven, like we do down here?  
Will the change come while we're waiting?  
Everyone is waiting Will we burn in heaven, like we do down here  
Will the change come while we're waiting?  
Everyone is waiting
