

# Show Me the Way

[Ringo Starr](#)

After all this time we've had to share  
The better life I've had 'cause you're still there  
I need to show you just how much I care  
There were times it wasn't always easy  
But we got through, nice to know  
I'm back to face another day with you  
There was choice done for you  
We've held hands through all these many years  
We hung around and wiped each other's tears  
Once again I'm glad to have you by my side  
Our love, it never ended  
I'm blessed to spend another day with you  
As I look up to the sky  
The sun begins to fade  
Asking all the questions how and why  
I turned to see your face  
The years have all flown by  
You're always there to show me the way  
Everything must change from bad to good  
We cast away these chains  
If I had to do it all again with you by my side  
Dark days always turn into the light  
As I look up to the sky  
The sun begins to fade  
Asking all the questions how and why  
As I turned to see your face  
The years have all flown by  
You're always there to show me the way  
As I look up to the sky  
And the sun begins to fade (sun begins to fade)  
Asking all the questions how and why  
I turned to see your face  
The years have all flown by  
You're always there to show me the way
