

Long Summer

Emily Hearn

Don't take your eyes off of me
Don't take your eyes off me
Remember songs that we'd sing
Remember everything you see
Because time can be a blessing or a thief
I've realized that all the memory flies away

Flies away
Time, time, time just
Time just flies away
Just close your eyes and sing
Just sing the proudest melody
Run hard until you're weak
That's how living life is meant to be
Because time can be a blessing or a thief
I've realized that all the memory flies away

It flies away
Oh, it's been a long summer
Yeah, it's been a long time coming
Used to cry on your shoulder
Now I can't seem to stop running
Oh, it's been a long summer
Yeah, it's been a long time coming
Never thought we'd grow older
Oh, but time never stops running

It flies away
Flies away
Flies away
Time, time, time just
Time just flies away
Time, time, time just
Time just flies away
Time, time, time just
Time just flies away
Time, time, time just
Time just flies away
Time, time, time just
Time just flies away
