

# Brand New Life

## Young Marble Giants

So bad when you went away  
Nothing I could do or say  
And now we are a lonely two  
Sit at home and watch the tube I've been hurt before,  
Sorrow knocking on my door  
Pain And so I make a brand-new-life  
Fashioned out of brand-new strife  
And when I hear the doorbell ring  
I can never let them in to me Pain is in me every day  
When you went it came to stay  
Come and be a cure for me  
Make the tears come out of me
