

Surrender

Jeff Loomis

Raging
Foaming
This sea of disillusion
Throws it's blinded anger
 back at the shore
 Where longing eyes
Desperately seek the dawn
 Yet, all is black
 Nothing can defeat
 This moonless night
 The depths are calling
 Like siren's song
 A soothing whisper
 The time has come
 Feel the cold
 Of this embrace
 A leap of faith
 A fall from grace
 From empty lives
 That feel like dying
 This sinking feels
 Like birds of prey in flight
 And what just felt
 Like ultimate defeat
Now appear like broken chains
 Surrender to the night
