----------English

Translation:Where you are, I will be there too
Where you go, I will go there tooI smile for you every day, I pray for you
With thoughts of you, I fall asleep I open my eyes as I call for you
You protect me by my side and you embrace me
You are my heaven* You're my only one way
Only for you I am thankful that I am next to you
You're the only one babe
You taught me love in this harsh world I am happy with you aloneHeaven Heaven Heaven Heaven Heaven x2
If we're together we will never cry never never cry

Heaven Heaven Heaven Heaven Heaven x2
Forever, together never gonna be aloneI breathe in your arms, we kiss in your arms
When I hear your voice, it feels like I'm dreaming
I can tell from your eyes, I can tell about your love
You are my heaven* You're my only one way
Only for you I am thankful that I am next to you
You're the only one babe
You taught me love in this harsh world I am happy with you alone
Heaven my only person, yes the person who will protect me
Any sadness, any pain if only I'm with you
I'm not jealous of anyone else hold my two trembling hands
Because the reason I live is you* You're my only one way
Only for you I am thankful that I am next to you
You're the only one babe
You taught me love in this harsh world I am happy with you aloneHeaven Heaven Heaven Heaven Heaven x2
If we're together we will never cry never never cry
Heaven Heaven Heaven Heaven Heaven x2
Forever, together never gonna be alone
Oh, so alone
