

You And I (Feat. Richard Hawley & The Death Ramps)

Arctic Monkeys

I like the way you look at me baby
Please don't try and turn on the lights
I act as if I'm not going crazy
Girl I'm in a muddle tonight
Would you tell me where you're gonna take it
If I had a heart you're the one who should break it
The engines running, can't decide if I should ride away
You and I
You and I had a woman, she went away
And now I'm lonely... Fuck it
You and I
You and I
You and I
Would you tell me where you're gonna take it
If I had a heart you're the one who should break it
The engines running, can't decide if I should ride away
You and I
You and I
You and I
You and I
You and I like the way you look at me baby
Please don't go and turn out the lights
I act as if I'm not long crazy
Girl, I'm in a muddle tonight
