I Hear You Calling

Bill Fay

I hear you calling from the riverbank
I will be coming when the air is black
All my time is lying on the factory floor
And all my time is lying on the factory floor

Some say messiah coming got to get it right
Some say messiah coming give me back my time
All my time is lying on the factory floor
And all my time is lying on the factory floor

I hear you calling
I hear you calling
I hear you calling
