

# Shine It On (Gustavo Assis Remix)

Wanessa

You over there, causing commotion  
So I decided follow the crowd  
To get to you, I'd cross the ocean  
I'd travel time, I want you  
Boy, bring it on  
I'ma be the one to take you higher  
Boy, bring it on  
I want you hot like sun  
I'ma be the one to light your fire  
Boy, bring it on  
We go all in tonight  
To get you in tonight  
You've got the brightest light  
Shine it on me  
Don't let the music stop  
Don't let my heart be dropped  
Your light is so damn hot  
Shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
The night is young, so let's embrace it  
I take control, follow you down  
Where you belong is here beside me  
So here we go, I need you  
Boy, bring it on  
I'ma be the one to take you higher  
Boy, bring it on  
I want you hot like sun  
I'ma be the one to light your fire  
Boy, bring it on  
We go all in tonight  
To get you in tonight  
You've got the brightest light  
Shine it on me  
Don't let the music stop  
Don't let my heart be dropped  
Your light is so damn hot

Shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me

Boy, that's desire  
Come and light my fire  
Come and light the flame  
And shine, shine it on me

Boy, that's desire  
Come and light my fire  
Come and light the flame  
And shine, shine it on me

We go all in tonight  
To get you in tonight  
You've got the brightest light

Shine it on me  
Don't let the music stop  
Don't let my heart be dropped  
Your light is so damn hot

Shine it on me  
We go all in tonight  
To get you in tonight  
You've got the brightest light

Shine it on me  
Don't let the music stop  
Don't let my heart be dropped  
Your light is so damn hot

Shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me  
Shine it on, shine it on, shine it on me
