

Good Morning Bright Eyes

Eels

Good morning bright eyes
How did you sleep last night?
Well, I didn't sleep so wellThe days are going faster
No time for this disaster
Well, I can't do it anymore
And I'm sureWith a heavy heart I tell you this
And if I don't I'll be remissed
There's nothing worse than living liesI need you be the leader
We don't [?] the leader
This flame has stayed for all these years
And I've kneeled
We gave it a shot, now I wouldn't [?]
Why don't we just back up and call it a day
There's something out there for us both
