Another Rainy Day

drumfish

I listen to the water as its falling on my house
And the rain comes through the hole in my roof
I get up out of bed on a Sunday afternoon
Make my way across my roomSomething about the way the rain comes down
Im feeling real good on another rainy dayI see you once again as we pass on the street
Superficial smiles and still weve yet to meet
Lifes too short today I think may be the day
Im gonna take a chance and I will saySomething about the way the rain comes down
Im feeling real good on another rainy dayIts just the way I see the world I guess
(Its nothing new)
Its just the way I see the world I guess
(When I see you)
Its just the way I feel when the rain comes down
Its just the way I see the world I guess
I need youSo we get to talking and we grab a bit to eat
Your hand in mine and a kiss on the cheek
Were moving kind of fast but thats alright with me
Someone like you could make my life completeSomething about the way the rain comes down
Im feeling real good on another rainy dayTell me what youre thinking when you look that way
Ill tell you what Im thinking on this rainy day
Come with me, sit by the water, watch the rain
The water from the sky will always fall the sameSomething about the way the rain comes down
Im feeling real good on another rainy dayIts just the way I see the world I guess
(Its nothing new)
Its just the way I see the world I guess
(When I see you)
Its just the way I feel when the rain comes down
Its just the way I see the world I guess
I need youThats the way I feel when the rain comes down
