Feel It

Sister Hazel

One two
One two three fourThere's been days I've fallen
Walked away the times I should have stayed
I looked away, yea looked away, so far away
When you asked I said, "I'm not afraid"But now well I can't hold it, hold it
Flash a frozen smile when it boils down inside
(Ooo)
Oh, now well I can't hold it, hold it
Just a little crack and then the walls come tumbling down
(Ooo)And I feel it, it's my time don't try to feel
Feel it, reach inside
Feel it, if you ask well I won't conceal it
Feel it, I used to wonder but now I finally
Know know know know know know know know know know
Know know know know knowPapa said, "The sun it also rises"
When I turn it's fallin' from the sky
(The sky)
It slips away, yea slips away, so far away
Leaves me starin' only at the nightBut now well I can't hold it, hold it
Flash a frozen smile when it boils down inside
(Ooo)
Oh, now well I can't hold it, hold it
Just a little crack and then the walls come tumbling down
(Ooo)And I feel it, it's my time don't try to feel
Feel it, reach inside
