

Genetics

Eternal Erection

Everybody look around
There's a brand new dance in town
Everybody's just a young and old
Everybody's doin' it
They be lookin' for the freak show
They be lookin' for the boogie low
Everybody's so young and attractive
Everybody's doin' it That's how it started
Workin' with genetics
That's how it started
Workin' with genetics
That's how it started
Workin' with genetics - ooh hoo hoo Everybody look around
There's a brand new dance in town
Everybody's just a young and old
Everybody's doin' it
They be lookin' for the freak show
They be lookin' for the boogie low
They be lookin' so young and attractive
Everybody's doin' it That's how it started
Workin' with genetics
That's how it started
Workin' with genetics
That's how it started
Workin' with genetics - ooh hoo hoo Everybody look around
There's a brand new dance in town
Everybody's just a young and old
Everybody's doin' it
They be lookin' for a freak show
They be lookin' for the boogie low
They be lookin' so young and attractive
Everybody's doin' it That's how it started
Workin' with genetics
That's how it started
Workin' with genetics
That's how it started
Workin' with genetics - eww hoo hoo That's how it started
Workin' with genetics
Yeah! That's how it started - whoop de doo

Uh! That's how it started
Workin' with genetics
Ow! That's how it started - whoop de doo
