

# Little Weirdo

## The Vandals

The little weirdo down the street says he's making a rocket ship with household items,  
so we can't find him.

Igloo cooler and some gasoline, soil samples and some magazines for the long ride home.[Chorus:]  
Set the controls for the farthest star and fly away.

Little weirdo.

No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away.

Planet earth never offered much,

just culture shock and a lot of strange looks from the native assholes.

Ground control there's no one there, we haven't heard a word from his interstellar patio chair.[Chorus:]  
Set the controls for the farthest star and fly away.

Little weirdo.

No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away.

The little weirdo left today he said we're doomed but from his view it's so beautiful.[Chorus:]  
Set the controls for the farthest star and fly away.

Little weirdo.

No one here is going to miss you much but I wish you luck on your trip- run away.  
Fly away, fly away
