

My Defiance

Comet Gain

I hope this, I want this, I need this
I won't be led?
Apathy has filled me
Oh brother can this really be the end Nothing ever happens to people like me
Where time grows slow
Where there's nowhere to go
But I won't be killed easy
'Cause I feel free
here comes the chorus now I found something that I thought was gone
My defiance is my number one
I really don't know where we get it from
My heart is broken and my brain is split in two
The look on a young girl's face
When she turns on her first record player
I need that and I want that
I'll grab this sensation by the throat Today's about the feelings
The love in our eyes
The dancing in your bedroom
?
So get up and use me but don't sell me
Here comes the chorus now I've been looking for it all my life
My defiance stays there by my side
Helps me conquer you
When my heart is broken and my brain is split in two I want you, I need you
I want this, I need this
I hope this emotion won't be tainted
I get so I won't know
How to go back to the shell I was For every single person there's a shock in the heart
I feel the burning, turning, beating possible
This song is about hope, desire
Here comes the chorus now Now I keep something i thought was gone
My defiance is my number one
I'm not scared no more
'Cause my heart is broken and my brain is split in two I want you, I need you
