Bubblin'

Jeremy Messersmith

She's alright, I'm uptight
Why carry so much heaviness?
Troublin', troublin', troublin' howOne moment, I'm frozen
December rise and suddenly I'm
Stutterin', stutterin', stutterin' nowLover, I can't say what I mean to say
Lover, I will put all these words away
Lover, I don't know how to make you stayUnspoken, I'm broken
Only silence winning, I'm
Sputterin', sputterin', sputterin' howSo lonely, no, tell me
Belly full of butterflies
Flutterin', flutterin', flutterin' outLover, I can't say what I mean to say
Lover, I will put all these words away
Lover, I don't know how to make you staySomewhere there's a place for us
Tell me what you've done to usI'll hold her, never own her
I can't name the feelings
Bubblin', bubblin', bubblin' out
