If I Go

Idlemode

You've got it easy but you've got the nerve to make a face
Although I'm strugglin' you can't tell because I keep it caged
We are together but I feel you're pushing me aside
Lend me a hand sometime the thought won't even cross your mindYou need to take a good look at yourself
'cause I'm about to close up shop
If you need a servant go find someone else
It's time to step up'Cause If I go
I'll be taking more with me than you would care to lose
Time is up step it up or you'll see me walk away
Just so you know
Nothing you can do could make me turn around again
Your time is up step it up or you'll see me walk awayIf we're together why you're pushing me away
You're taking chances boy we're getting closer to the day
You need to take a good look at yourself
'cause I'm about to close up shop
If you need a servant go find someone else
It's time to step up'Cause If I go
I'll be taking more with me than you would care to lose
Time is up step it up or you'll see me walk away
Just so you know
Nothing you can do could make me turn around again
Your time is up step it up or you'll see me walk away'Cause If I go
I'll be taking more with me than you would care to lose
Time is up step it up or you'll see me walk away
Just so you know
Nothing you can do could make me turn around again
Your time is up step it up or you'll see me walk awayIt's time to step up
I said it's time to step it up
Yeah time to step up
Time to step it up
I said it's time babe to step it up
Step it up
