

# Seasons Change

Candie Payne

Cradle the weight of your life  
You can survive what lies before you  
It's only a matter of time  
Before the night turns into day  
Oh, it should feel incredible, whoa  
To know you're not alone, uh  
Just look in my eyes  
Whoa, just look in my eyes  
I said, happy turns to sad  
And sometimes life gets bad  
And things get rearranged  
Nothing stays the same  
It just never ends, here we go again  
One thing still remains  
Seasons seasons change  
C'mon yeah, seasons change  
C'mon yeah, seasons change  
C'mon yeah, seasons change  
Are you scared of today, running away  
I can see through you  
It feels like an eternal haze, it's only a faze  
It's all in your mind  
Oh, when you feel invisible, uh  
Just know you're not alone  
Just look in my eyes  
Just look in my eyes  
Happy turns to sad  
And sometimes life gets bad  
And things get rearranged  
Nothing stays the same  
It just never ends  
Here we go again  
One thing still remains  
Seasons seasons change  
You can feel the air start to change  
When you're walkin' out in the rain  
And the colors inside your brain started fading  
'Til the winter is washed away

And nothing really feels the same

When sunlight's in your eyes, you feel alive

What I really want

What I really want

What I really want

What I really want

I said, yeah, yeah, yeah

Happy turns to sad

And sometimes life gets bad

And things get rearranged

Nothing stays the same

It just never ends

Here we go again

One thing still remains

Seasons seasons change

It just never ends

Here we go again

One thing still remains

Seasons seasons change

It just never ends

Here we go again

One thing still remains

Seasons seasons change

C'mon yeah, seasons change

C'mon yeah, seasons change

C'mon yeah, seasons change

The seasons seasons change

Uh, yeah seasons change

Uh, yeah seasons change

Happy turns to sad

And sometimes life gets bad

And things get rearranged

Nothing stays the same

It just never ends

Here we go again

One thing still remains

The seasons seasons change

Yeah, c'mon
