

Dreamin'

Usher

There's a long and winding road that we have traveled There's a long and winding road that we have traveled
And the prize that waits for all who will prevail And the prize that waits for all who will prevail
There's a place for those who stand up tall in battle There's a place for those who stand up tall in battle
Up against all odds determined not to fail Up against all odds determined not to fail
And when the moment comes you know that you'll be ready And when the moment comes you know that you'll
be ready
To push yourself beyond where you have gone before To push yourself beyond where you have gone before
So write your name beside the very best in history So write your name beside the very best in history
And take a bow before the crowd and hear them roar And take a bow before the crowd and hear them roar
(JOE)
Anything you can do this is from me to you Anything you can do this is from me to you
(Usher & JOE) (Usher & JOE)
Just keep dreamin' keep on dreamin' Just keep dreamin' 'keep on dreamin'
And if you really believe in time And if you really believe in time
You will make your dreams come true You will make your dreams come true
Just keep dreamin' don't stop dreamin' Just keep dreamin' 'don't stop dreamin'
'Cause no one else can live your dream but you 'Cause no one else can live your dream but you
(Usher)
So you rise above each hurdle you encounter So you rise above each hurdle you encounter
Let no obstacle before you slow your speed Let no obstacle before you slow your speed
For you possess a will to win that burns intensely For you possess a will to win that burns intensely
And win you will yes this will be your creed And win you will yes this will be your creed
And when the moment comes you know that you'll be ready And when the moment comes you know that you'll
be ready
To push yourself much harder than you have done before To push yourself much harder than you have done
before
So write your name beside the very best in history So write your name beside the very best in history
And take a bow before the crowd and hear them roar And take a bow before the crowd and hear them roar
(JOE)
Anything you can do this is from me to you Anything you can do this is from me to you
(Usher & JOE) (Usher & JOE)
Just keep dreamin' keep on dreamin' Just keep dreamin' 'keep on dreamin'

And if you really believe in time And if you really believe in time
You will make your dreams come true You will make your dreams come true
Just keep dreamin' don't stop dreamin' Just keep dreamin' 'don't stop dreamin'
'Cause no one else can live your dream but you 'Cause no one else can live your dream but you
(Usher)
And in the end with no regret And in the end with no regret

You're given your all and nothin' less You're given your all and nothin' less
You know you've been the best that you can be You know you've been the best that you can be
No one can say you didn't try No one can say you didn't try
Go on and wave your banner high Go on and wave your banner high
And savor that sweet taste of victory And savor that sweet taste of victory
(Usher & JOE) (Usher & JOE)
Dreamin' keep on dreamin' Dreamin' 'keep on dreamin'
And if you really believe in time And if you really believe in time
You will make your dreams come true You will make your dreams come true
Just keep dreamin' don't stop dreamin' Just keep dreamin' 'don't stop dreamin'
'Cause no one else can live your dream but you 'Cause no one else can live your dream but you
Just go ahead and live the dream Just go ahead and live the dream
Anything in life can happen Anything in life can happen
If you give your best in all you do If you give your best in all you do
Ain't no limit for those who want it Ain't no limit for those who want it
Take a chance and let it all come true Take a chance and let it all come true
Shake your fears and hold your head high Shake your fears and hold your head high
You can make it if you really try You can make it if you really try
'Cause no one else can live your dream but you 'Cause no one else can live your dream but you
Dreamin keep on dreamin Dreamin keep on dreamin
and if you really believe in time And if you really believe in time
you will make your dreams come true You will make your dreams come true
Just keep dreamin keep on dreamin Just keep dreamin keep on dreamin
'Cuz no one else can live your dream but you 'Cuz no one else can live your dream but you
