Don't Say No

Distorted Penguins

When I see you it seems like you wanna get with me
You act like you have feelings for me,
But in the end it's all phony
I guess friends is what we are I guess it's what we're gonna be
It's something that i've gotta deal with even if I'm not ready.Then you do it again,
Make me think that I've got a chance and then
Then you ruin my plans
Ask you out and you say No again.Every day you smile my way and come over to talk to me
Then you bat your eyes at me,
My God you're such a tease
I see you at the movies you're there with some other guy
I will never understand, I never will, never will no I...Hey hey, alright now, No no, No no no
Don't say no, Don't say no, Don't say no
