

The Difference

Group 1 Crew

Everyday is the same thing.
Stuck in the same scene
(Oh oh oh oh oh)
Your life is caught in a rerun
Scripts never changing
(Oh oh oh oh oh)
You see behind the curtain, every lie that they say
Through the smoking mirrors, what's real and what's fake
So tired of the replays
There's got to be a better way, a better way
Love is the difference
(I'm a show you, show you)
Love can open your heart
Let me show you the difference
Love (Show you the difference)
Love (Show you the difference)
Love can open your heart
Let me show you the difference
It's more than empty words that you've already heard
(Oh oh oh oh oh)
It's everything you want, but think you don't deserve
(Oh oh oh oh oh)
You've seen behind the curtains, don't believe what they say.
Through the smoking mirrors, you just gotta break away
So tired of the replays
There's got to be a better way, a better way.

Love is the difference
(Come and show you, show you)
Love can open your heart
Let me show you the difference
Love (Show you the difference)
Love (Show you the difference)
Love can open your heart
Let me show you the difference
Love (Show you the difference)
Love (Show you the difference)
Love can open your heart
Let me show you the difference

Let me show you
Let me show you the difference
Show, show, show you the difference
Show, show, show you the difference
Show, show, show you the difference
(Love can open your heart...)
Show, show, show you the difference
(And show you the difference)
Lo-o-o-o-ove
Lo-o-o-o-ove
Lo-o-o-o-ove can open your heart
Let me show you the difference
Love (Show you the difference)
Love (Show you the difference)
Love can open your heart
Let me show you the difference
