War In Me

Kenna

You call, call, call on me
I suffocate in all of it
But call, call on me
It's hard to breathe
I suffocate and choke on itIt's bittersweet for me to know
The fever's taking over
The status of my fear soars
I'm waging a war, a war in me
The war in me is wailing
I, I still believeTo tryin' all this is short of bliss
To kill the cycle that I've fed
The labyrinth in me
Is every sin, every game
And all have lainIt's bittersweet for me to know
The fever taking over
The status of my fear soars
I'm waging a war, a war in me
A war in me, a war in me, blairing
I, I believe, I believeColors bleed in a war
War for me, a war for me
A war for me is blaring
I, I, I, I, I, I can see
Heaven sees for meWhoa, whoa, whoaHere it's bittersweet for me to know
Fever taking over
The status of my fear soars
I'm waging a war, war in me
A war in me, a war in me is blaring
I, I believe, I believeThere's a war, war for me
A war for me, a war for me is blaring
I, I, I, I, I, I can see
Heaven steersOh, it's bittersweet for me to know
Fever taking over
The status of my fear soars
In a war, a war in me
A war in me, a war in me, blaring
I, I believe, I believeThere's a war, a war for me
A war for me, a war for me, blaring
I, I believe, I believe, yeah
There's a war, a war in me

A war in me, blaring, war in me
A war in me, blaring, a war in me
