

# War In Me

Kenna

You call, call, call on me  
I suffocate in all of it  
But call, call on me  
It's hard to breathe  
I suffocate and choke on it It's bittersweet for me to know  
The fever's taking over  
The status of my fear soars  
I'm waging a war, a war in me  
The war in me is wailing  
I, I still believe To tryin' all this is short of bliss  
To kill the cycle that I've fed  
The labyrinth in me  
Is every sin, every game  
And all have lain It's bittersweet for me to know  
The fever taking over  
The status of my fear soars  
I'm waging a war, a war in me  
A war in me, a war in me, blairing  
I, I believe, I believe Colors bleed in a war  
War for me, a war for me  
A war for me is blaring  
I, I, I, I, I, I can see  
Heaven sees for me Whoa, whoa, whoa Here it's bittersweet for me to know  
Fever taking over  
The status of my fear soars  
I'm waging a war, war in me  
A war in me, a war in me is blaring  
I, I believe, I believe There's a war, war for me  
A war for me, a war for me is blaring  
I, I, I, I, I, I can see  
Heaven steers Oh, it's bittersweet for me to know  
Fever taking over  
The status of my fear soars  
In a war, a war in me  
A war in me, a war in me, blaring  
I, I believe, I believe There's a war, a war for me  
A war for me, a war for me, blaring  
I, I believe, I believe, yeah  
There's a war, a war in me

A war in me, blaring, war in me  
A war in me, blaring, a war in me
