Manipulate (Mastermind mix)

Freezepop

(mastermind, your design)
(I am blind, far behind)

manipulate (mastermind)
manipulate (your design)

you tell just half the truth
you're pulling strings and pushing buttons
wheels are turning in your head
I know that you are up to something
in your mind a plan is hatching
behind your innocent disguise
you know I'm onto you
so you won't look me in the eyes

(manipulate) you are a mastermind
(manipulate) it's all by your design
(manipulate) you think that I am blind
(manipulate) but I'm not far behind

you know just what you want
you know just how to get it
you are far too devious
you're clever though, I must admit it
you've got that killer instinct
you do what must be done
you've got your own agenda
you're looking out for number one

(mastermind)
you are a mastermind (manipulate)
(your design)
it's all by your design (manipulate)
(I am blind)
you think that I am blind (manipulate)
(far behind)
but I'm not far behind

I'm not perfect, I've done it too
but not nearly as much as you

as much as you

(manipulate) you are a mastermind
(manipulate) it's all by your design
(manipulate) you think that I am blind
(manipulate) but I'm not far behind
(manipulate)

(mastermind, your design)
(I am blind, far behind)
(2x)
