

# Three Times Again

## Candiria

Don't forget the pain, your destination  
Break the core of lies in half  
Analyze this thought perception  
Plead before the jury of my vine  
Courteous, generous the fragments that define witness  
Synthetic man the DNA master key man made  
Tolerable excessiveness  
Manufacturing the human product  
While the duplicates are paved is thy pallet satisfied?  
False blood additives compatible  
Snapping the vertebrae revolve around the points  
Natural law brilliant forces of attraction celebrate  
Incriminating substances spew cattle pressed abrasions  
Obligated to advancement inspected thoroughly  
Oversized dependency the state of art engines are running  
Most cunning crawling pig quench to saturate  
caressing to oblivate  
Do not surround yourself with an assembly  
of resented fools  
They will leave you plummeting to your death  
never ending recycled pool  
Third world dissident my teeth are clenching  
Terrorized in digital in a state of importance  
Intimidate discontinue the plagued  
Convenience three times again  
Slipping cyber health omnipresent  
Rescue evolvilist evaporate the deserts dry  
Release the valves high pressure pure mentalist  
Candidate that pacifies send this up to the glands  
One for you and me rising strong the unities  
Conquering the corrosions  
Run from nothing, run from nothing fast  
Blinded by the critical the plots shall come to pass  
Pull the grin down off  
Choking you to death the fall of empires to come unleash
