Old Love Song

Eva Avila

Wandering around in the city
Nothing like my sweet hometown
Everybody seems so pretty
Trying to keep my feet on the groundAnd I just bought these brand new clothes
So why am I still feeling blue?
Something's still missing
I just figured outYou'll take me home like an old love song
I could listen to that record all night long
You'll take me home from these crazy days
When it feels like everything is going wrong
It gets easier when you play that old love songNever knew how much I could miss you
Never thought I'd feel this way
Took a thousand miles and a plane ride
Now I think about you night and dayI would leave these brand new clothes
Just so I could let you know
It was you that was missing
I just figured it outI've been busy chasing dreams
Left behind the most beautiful thing
And all I know is I just wish
You'd come back hereAnd when you play that old love song
Take me home like and old love song
I could listen to that record all night long
You'll take me away from all these crazy days
When it feels like everything is going wrong
It gets easier, so much easier
It gets easier when you play that old love song
