

I Really Can't Say

Ub40

I really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around
I'll pick myself up
I'll dust myself downLet's leave it at that
I don't want to fight
Don't say anything that you may regret
In fact, it's the last thing I need tonight
Your words in my head are hard to forgetI really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around
I'll pick myself up
I'll dust myself downLet's leave it for now
Let's call it a day
We don't have to talk about this anymore
That look on your face gave it all away
We've traveled these roads many times beforeI really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around
I'll pick myself up
I'll dust myself downLet's leave it alone
Before it's too late
Give it a rest for a moment or two
We can pick it back up at a later date
If you feel that's what you have to doI really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around

I'll pick myself up
I'll dust myself down I really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around
I'll pick myself up
I'll dust myself down I really can't say
How I feel right now
I would if I could
But I don't know how
Just give me some time
And I'll come around
I'll pick myself up
I'll dust myself down I really can't say
