Room 309

Creeper

[Verse 1]
Ex-lovers stalk the streets like shot arrows
We were burning down houses singing "love has left us low"
You swim the water now even though you know exactly what lies below
Calling "wolf" each time you say you'll go[Pre-Chorus]
Eternity, in your arms[Chorus]
Wrap your heart in chainmail
We all die just to feel alive
Your friends become echoes of a life that you left behind[Verse 2]
Floating like an astronaut in space
They tell me that purgatory's such a pretty place
But I never thought about living here
Heaven knows hell's gates are near
Forever seems like such a thing to waste[Pre-Chorus]
Eternity, in your arms[Chorus]
Wrap your heart in chainmail
We all die just to feel alive
Your friends become echoes of a life that you left behind[Bridge]
I've been a man, now a ghost
Two of the things that you fear most...
Now it's the end of this journey, what's left for me?
I've been a man, now a ghost
Two of the things that I fear most...
Now it's the end of this journey, what's left for me?[Outro]
Now I'm left asking myself
If there's a god up watching me I just can't see
Then how could he build a world but still not fix you and me?
If there's a god up watching us I just can't see
Then how could he build a world but still not fix you and me?
