

New York Skyline

[Garland Jeffreys](#)

Baby Jean
Vaudeville queen
She love to ragtime in the night
I know Im gonna miss my baby Jean
Cause she treats me oh so rightBut the New York Skyline
its calling me home tonight
Female, feline, feminine,
shes been making my world so brightHindsight, foresight
Sometimes weve got no sight at all
New love, true love
Sometimes weve got no love at allBut the New York Skyline its
calling me home tonight
Female, feline, feminine,
Shes been making my world so brightNew York Skyline, New York Skyline
I can see those city lights
And I can feel those neon signs
Bright lights, big city
Well it must be modern times
Yes it must be modern times
Well it must be modern times
