Scum

Electro Hippies

McDollars, McGreedy, McCancer, McMurder....
Parachuting McNuggets, it seems so much fun,
and the kids never see how the slaughter is done
happy hats and party games and a funny old clown,
and the plastic junk keeps getting forced down.....McDeadly, McDisease, McProfits, McHunger.....
Cut their profit margin, cut it dead,
bring me a stick and on it Rons head,
try to make you stop by making others see,
multinational corporation, profits from misery...McRipoff, McTorture, McWasteful, McGarbage....
Cut down acres of rain forest just to package the shit,
get the kids on their side, having fun they dont want to see it,
put adverts on telly, using gimmicks to make it seem on unreal,
fast food seems fun until you realise its in death they deal.
