No Ordinary World

John Farnham

My day starts off the same
Looks like it might rain
But I will not complain
'Cause I can see the sunI say my little prayers
Running down the stairs
The streets are going nowhere
But I don't careBecause this day is beautiful
Nothing's gonna get me downIt's no ordinary world
When you're here with me
I take the time to smile
I have the space to breatheNo ordinary world
When you walk with me
I see inside these dreams
Every diamond, every pearl
It's no ordinary worldEverybody's got a dream
Every thought and every scheme
And all the spaces in between
To see the cloudsBut I won't give it too much time
To get inside my mind
'Cause all that matters
Is we're here right nowWhen you're lying close to me
You're all the joy I needIt's no ordinary world
When you're here with me
I take the time to smile
I have the space to breatheNo ordinary world
When you walk with me
I see inside these dreams
Every diamond, every pearl
It's no ordinary worldIt's no ordinary world
When you're here with me
I take the time to smile
I have the space to breatheNo ordinary world
When you walk with me
I see inside these dreams
Every diamond, every pearlIt's no ordinary world
When you're here with me
I take the time to smile
I have the space to breatheNo ordinary world
When you walk with me

I see inside these dreams
Every diamond, every pearl
It's no ordinary world
It's no ordinary world(No ordinary world)
(No ordinary world)
It's no ordinary world
(No ordinary world)
(No ordinary world)Every diamond, every pearl
(No ordinary world)
(No ordinary world)
No ordinary world
(No ordinary world)
