

# Penetrate

Ezra Furman

Penetrate my body  
Penetrate my mind  
Penetrate to the centre  
Leave the rest of it behind  
Burn away all the excess  
That no longer applies  
I've been changed  
My Lord, I've been changed  
Have a cold cup of coffee  
At a quarter to five  
Spit your blood in the toilet  
When you watch the big sunrise  
Better learn how to run now  
That there's nowhere to hide  
Happy day  
Oh happy day All the boys and the girls  
Learn to penetrate so young  
And the men and the women  
Hit the town and have their fun  
And when they all hear my record  
They will know what I have done  
I've been changed  
My Lord, I've been changed  
Penetrate my country  
Penetrate my home  
Run away in the night time  
To the ocean white with foam  
Sail away on the ocean  
Meet your Maker on your own  
Happy day  
Oh, happy day
