It's Over

The Fire Theft

Hello to the world
You decide what you are
Why hide when it rains?
And I can grab hold of love if I want itHello to the world
You decide how far
Why hide in the rain?
When you can grab hold of love if you want itYou wanted everything
And it is what you got
A love for better days
You're right all tied in knots
Why can't you let yourself be anything?
Why can't I let yourself let it be?World still spinning around
Still figuring out just where to begin
Head still dizzy in clouds still figuring
Out where to fit in
Never to roam e'en one day without
Oh how the days can slip away
Never to roam that one day without
Whenever you want love
I could never get enough
Hold me and it spun round
Hook me on the road outHello to the world
You decide what you want
I want to hide in a cave
When I can't grab hold of love if I want itYou wanted everything
And it is what you got
A love for better days
You're right all tied in knots
Why can't I let myself hear anything?
Why can't I let myself let you let go
Let go
