Promise

Taproot

Tonight's the night in your arms again
Be the one to make me whole and then
Say whatever you have to say to me
On and honestlyEvery single thought of you amazes me
So I'll promise you, I'll promise you to meTo find the one with your heart and stem
Freed and mine much more than the rest of them
Seed, the chance to grow and be with me
The way I know and seeEvery single thought of you amazes me
So I'll promise you, I'll promise you to me
Every single time that you've forgiven me
So I'll promise you, I'll promise you to meThere you are in my thoughts again
Fearing all we have is dead
Taken time as the best of friends
Please don't let me down againEvery single thought of you amazes me
So I'll promise you, I'll promise you to me
Every single time that you've forgiven me
So I'll promise you, I'll promise you to meEvery single thought of you
Every single thought of you
Every single thought of you
Every single thought of you
