

Fingerhut

Biffy Clyro

All I want's a Fingerhut
To put my friendly fingers in
Love is over, hence my lover
Has taken leave, left this town
Right and left or in and out
I'm too serious
For most others Now I've got a fingerhut
Time to start breaking out
These clones of me are unhealthy
Islands of naked gods
Feasting on a bloated corpse
All adore me, all adore me Should I settle down with you?
Barn house, have a large family
In our broken zone
Babe, will you marry me? All I want's a Fingerhut
To put my friendly fingers in
Love is over, hence my lover
Has taken leave, left this town
Right and left or in and out
I'm too serious
For most others Should I settle down with you?
Barn house, have a large family
In our broken zone
Babe, will you marry me? All my life's a mess
I thought that you cared
Make fun of me dead
Now there is no one else
Back to the two of us Should I settle down with you?
Barn house, have a large family
In our broken zone
Babe, will you marry me? All my life's a mess
I thought that you cared
Make fun of me dead
Now there is no one else
Back to my fingerhut
