

# Always

Jordan Pruitt

Always

I'll take the chance to say  
I feel this emptiness when you walk away  
And now I must confess  
That it's not the same without you here with me  
Then the rain goes away  
When I see that face like a summer day  
The clouds just get erased  
You never cease to amaze every time you're here with me  
I reach for your hand, at night I pray  
Together we'll find, find a way  
To be in love starting today

Always

I reach for the words, speak from my heart  
You fall to the ground, I fall apart  
It's so hard to feel this way  
Always, always  
When the moon appears  
I like to make a wish, wishing you were here  
'Cause that's what lies the best  
And it's all so clear every time you're here with me  
I reach for your hand, at night I pray  
Together we'll find, find a way  
To be in love starting today

Always

I reach for the words, speak from my heart  
You fall to the ground, I fall apart  
It's so hard to feel this way  
Always, always  
Somehow I have known you  
Let's see where this goes to  
'Cause we're just beginning  
I love how it's feeling  
When I reach for your hand, at night I pray  
Together we'll find, find a way  
To be in love starting today

Always

I reach for the words, speak from my heart  
You fall to the ground, I fall apart

It's so hard to feel this way  
Always, always, always  
Forever  
Forever
