I Want You (Komon Remix)

Huxley

I want you
You aint got to wonder
I can bring the summer
I want youYou can hold me baby ain't no ifs or maybes
I want you
We can let them talk don't care what they say
Never get my love like you got it babe
I want youWhisper lies heard a 1000 times
But our word don't mind
Our loves a different kind
I want youYou aint got to wonder
I can bring the summer
Hold me baby lover
I want youYou can hold me baby ain't no ifs or maybes
You gonna drive me crazy
I want you
We can let them talk don't care what they say
Never get my love like you got it babe
I want youWhisper lies heard a 1000 times
But our word don't mind
Our loves a different kind
I want you
