Purple Skivvy

Angus & Julia Stone

Haven't felt my heart beat in fifteen years
I haven't felt my heart beat
Since I saw you standing here

Love is not a war that I have got to fight
When in this life
What I (can't love right?)

I, I haven't got what I need
From you

A purple skivvy (remark?)
You know what they are
Memories attached to photographs

I'm one of those girls
Who carries on the lie
I'm one of those people who never gets facts right

I, I haven't got what I need
From you
What I need, from you
What I need
