

For You

Gavin James

Maybe I II forget and maybe I won't

I'm stuck in the moment

And so far from home

This lovin' nobody, it's breakin' my heart But you'll never know this wherever you are Well maybe I don't give up easily And I know this is hard to see But I wish time would slow down

So I could keep your heart around If I can make you stay another day III wait another day for you, for you Maybe I'm love drunk, I wish that I da known What you would say if time would slow down So I could keep your heart around If I can make you stay another day

III wait another day for you

Well maybe I don't give up easily Oh but I know this is hard to see But I know time won't slow down So I can keep your heart in my hands Oh but maybe if you stay a little while You might feel like I do for you
