

Simple Guy

Ed Motta

Whole the ocean
When you come
And we sits at the foot of the hill
Well the sun
Almost now And moon
Sees it all
Any talk
Telling us
That we should
Going dance
And it slides
For our all
But I just have to wait
Happy every time your'e walking by I'm a simple guy When money talks in my ear
Saying things that I don't understand
Listen now
All the talk
All of them
On the car
On the phone
Building buildings so high
I don't know
I can't leave
So fast But I just have to wait
Happy every time your'e walking by I'm a simple guy
