

# Two to Make It Right

## Seduction

It takes two, it takes two, me and you  
It takes two, it takes two, me and youIt takes two to make a thing go right  
It takes two to make it out of sight  
It takes two to make a thing go right  
It takes two to make it out of sightFrom the start it's plain to see  
You're suffering from a serious broken heart,  
You know that it's a shame  
But I'm here to ease your pain  
There's no need for you to feel so all alone  
When you and I could seriously  
Be a sure enough happening thingDon't you know that  
It takes two to make a thing go right?  
It takes two to make it out of sight  
It takes two to make a thing go right  
It takes two to make it out of sight  
I can see it in your eyes  
You feel the same way I feel about you  
Some call it chemistry  
I call it you should be with me  
'Cause I know together we can really turn this mother out  
In my mind there is no doubt  
That one and one equals me and youDon't you know that it takes two to make a thing go right?  
It takes two to make it out of sight  
It takes two to make a thing go right  
It takes two to make it out of sight  
It takes two to make a thing go right  
It takes two to make a thing go right  
It takes two to make it out of sight  
Eh, eh, eh!  
I don't believe in fairy tales  
I believe some things were meant to be  
Why should we be alone  
When we could have each others arms to hold?  
I know together we could really turn this mother out  
In my mind there is no doubt  
That one and one equals me and youDon't you know that it takes two to make a thing go right?  
It takes two to make it out of sight  
It takes two to make a thing go right

It takes two to make it out of sight  
It takes two, it takes two, me and you  
It takes two, it takes two, me and youYeah, yeah, yeah  
'Cause you and me, together we will be  
Forever and ever, eeeeh!It takes two, it takes two, me and you  
It takes two, it takes two, me and you  
Me and you, takes you and me  
My man, my man, my man, my man, my man, my man
