

# Out of This World

## The Cure

When we look back at it all as I know we will  
You and me, wide eyed  
I wonder

Will we really remember how it feels to be this alive? And I know we have to go

I realize we only get to stay so long  
Always have to go back to real lives  
Where we belong And I know we have to go  
I realize we only get to stay so long  
Always have to go back to real lives

Where we belong When we think back to all this and I'm sure we will

Me and you, here and now  
Will we forget the way it really is  
Why it feels like this and how? And we always have to go I realize  
We always have to say goodbye

Always have to go back to real lives But realizations are the reason why  
We want to live another life  
We want to feel another time

Another time Yeah another time To feel another time When we look back at it all as I know we will  
You and me, wide eyed  
I wonder

Will we really remember how it feels to be this alive? And I know we have to go  
I realize we always have to turn away

Always have to go back to real lives But real lives are why we stay  
For another dream  
Another day  
For another world  
Another way

For another way One last time before it's over  
One last time before the end  
One last time before it's time to go again
