

Jnr NBC

Capdown

Waitin' to be seein'
I've been waitin' to be seein' all this time
No longer scared to ask why
Take a piece of hardcore pride
Take it feel it deep inside
No longer feel like I'm going nowhere Time is of the essence
Can you feel the presence
Now that we can see past today
Though maybe it was in my brain
That I was showing insane
But now we're gonna take full control
