I try too hard
Persuasion never wins
So let me start again
And here it is as plain as day
These words not mine but His
And this is what they sayMy hands they made you
My breath I gave you
My son, He saves you
If you want to you can wear My name
My love unending
My truth unbending
I want you to wear My nameI'm just like you
Our sin, a cross, His son
As your friends we come
So here we are another verse
A different view, God as a Father
Us, His pursuitMy hands they made you
My breath I gave you
My son, He saves you
If you want to you can wear My name
My love unending
My truth unbending
I want you to wear My nameUnending, unbending
I want youMy hands they made you
My breath I gave you
My son, He saves you
If you want to you can wear My name
My love unending
My truth unbending
I want you to wear My nameMy hands they made you
My breath I gave you
My son, He saves you
If you want to you can wear My name
My love unending
My truth unbending
I want you to wear My nameOne thing's for certain
I want you to wear My name
Wear My name
