

# Wilder Than Fire

## Defleshed

Hesitate  
You'll figure out how  
But that's to late  
Cause you're close to death now Rise without shining  
Freedom forces one to chaos  
And these are no good combining  
There's no use to excuse Suffering upon the pyre  
And you are wilder  
Wilder than fire  
Wilder than fire  
Raw energy is what I require Wilder than fire  
Raw energy is what I require  
Wilder than fire  
Essence of speed is what I admire  
You suffocate  
And feel the tension  
It's all to late 'cause  
There's no redemption
